

# REGIONAL SERVICE & TRAINING CENTER

30 factory-certified technicians within the region

Stiles University is the industry's only nationally accredited workforce development program. Our team of certified professionals guide students through comprehensive, hands-on technical and application trainings designed to equip you with the knowledge you need to optimize your machinery and manufacturing practices.

# EDGETEQ S-240 SERIES

The HOMAG EDGETEQ S-240 Series of edgebanders produce perfect edges for small shops to large-scale furniture and component industries for the highest-quality results. Continuing with the quality performance and features of the S-200 series, the S-240 series also adds the benefits of increased feed speed and slightly automated to servo processing.

**S-240 SERIES** | The QA65 gluing unit is a standard on the HOMAG edgebanders starting with the S-240 SERIES. It is considered the most advanced gluing unit in the edgebanding market and offers several distinctive advantages. These include a quick heat-up time, Teflon coating that allows it to use a variety of hotmelts, including PUR, the ability to be purged from the control, a quick release feature, consistent adhesive quantity without wear of the application roller, electro-pneumatic clamping that keeps the edges clean, and a glue roller that is both heated and coated for a consistent adhesive amount and control of viscosity.

PowerTouch represents the operating philosophy of HOMAG: standardized, simple, ergonomic and evolutionary. A large, widescreen multi-touch monitor allows machine functions to be controlled directly by touch. The entire programming offers numerous help and assistant functions that make working processes substantially easier and efficient.

## EDGETEQ FEATURES

	EDGETEQ S-240 FC AUTO	EDGETEQ S-240 SERVO
Control Panel	Easy Touch	24" powerTouch
Pre-Milling Unit	✓	✓
Gluing Unit QA65	✓	✓
Snipping Unit	✓	✓
Trimming Unit	✓	✓
Contour Trimming (Corner Rounding)	✓	Servo Controlled
Profile Scraper	Quick Change	Servo Controlled
Glue Joint Scraper (Flat Scrape)	✓	✓
Buffing Unit	✓	✓
<b>Feed Speed:</b>	11 m/min (36 ft/minute)	11 m/min (36 ft/minute)
<b>Contour Trimming Feed Speed:</b>	11 m/min (36 ft/minute)	11 m/min (36 ft/minute)
<b>Length:</b>	4,740mm (15.5ft)	5,535mm (18ft)
<b>Weight:</b>	1,500kg (3,300lbs)	1,840kg (4,050lbs)
