

Kentwood Moulders for 2023

SINGLE KNIFE FINISH (NON-JOINTED)

KENTWOOD M-100

- Entry level, good for S4S and light moulding.
- 5 spindles, 1 ½" diameter, 9" width capacity with ProLock clamping is standard.
- Feed speed: 18-80 f/min.
- Head 2&3 share a motor.
- **5 spindle = \$59,230.00**

KENTWOOD M-200

- Formerly M509S and M609S.
- 5 or 6 spindles, 1 13/16" diameter, 10" width capacity with ProLock clamping is standard.
- Feed speed: 18-80 f/min.
- Standard machine; ideal for moulding, S4S and cabinet shops.
- **5 spindle = \$69,230.00**
- **6 spindle = \$94,230.00**

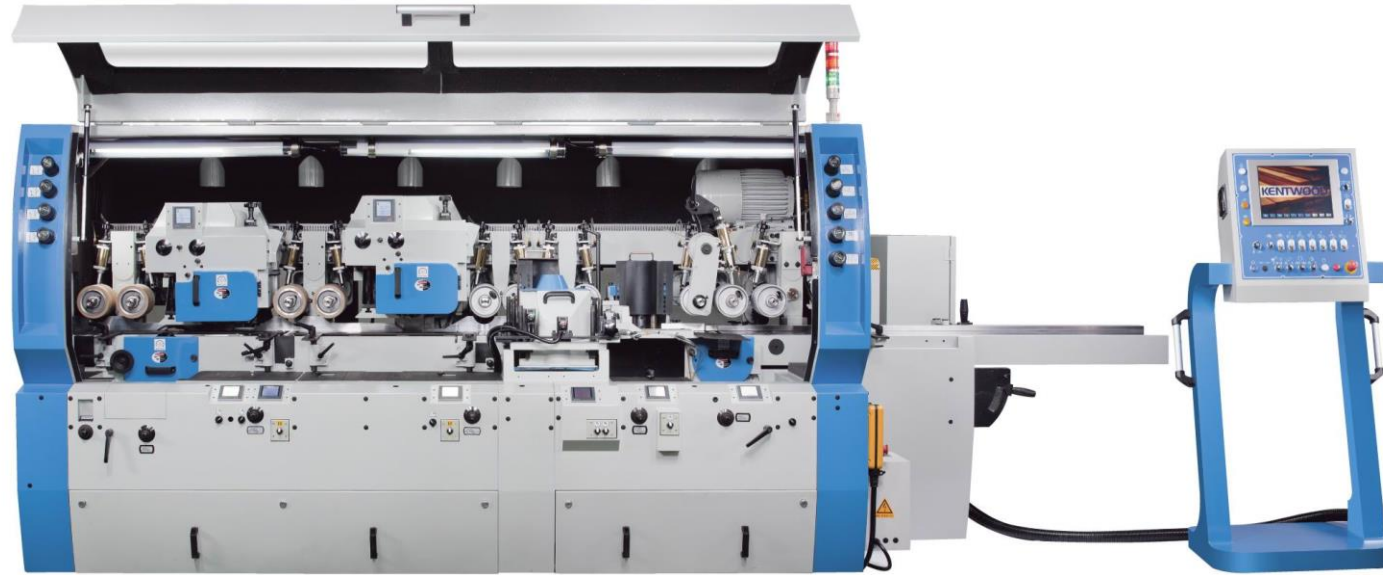

KENTWOOD M-200X

- Formerly M509X and M609X
- 5 or 6 spindles, 1 13/16" diameter, 10" width capacity with ProLock clamping is standard.
- Ideal for moulding, S4S and cabinet shops needing fast setup time.
- Increased feed speed:
 - 18-100f/min.
 - Variable speed spindles: 4000-8000 RPMs.
- Motorized axis position on spindles 3, 4, 5 and feed beam for fast setup time.
- **5 spindle = \$89,230.00**
- **6 spindle = \$110,230.00**

KENTWOOD M-500

- Formerly M609HD and M612HD.
- 6 spindle, 1 13/16" diameter, 10" width capacity with ProLock clamping is standard.
- 12" width capacity with outboard bearings also available.
- Feed speed: 20-118 f/min.
- Variable speed spindles: 4000-8000 RPMs.
- Motorized axis position on spindles 3, 4, 5 and feed beam for fast setup time.
- Heavy duty; large cutting circles, ideal for moulding shops, large profiles and heavy profiling.
- **10" width = \$129,230.00**
- **12" width = \$169,230.00**
