

REGIONAL SERVICE & TRAINING CENTER

30 factory-certified technicians within the region

Stiles University is the industry's only nationally accredited workforce development program. Our team of certified professionals guide students through comprehensive, hands-on technical and application trainings designed to equip you with the knowledge you need to optimize your machinery and manufacturing practices.

For more information contact your local salesperson, or email Annette Bilocca at: abilocca@stilesmachinery.com

EDGESEQ S-200 SERIES

The HOMAG S-200 series edgebanders offer a wide variety of solutions from standard, automated, and airTec to give customers the best value for producing perfect edges. The S-200 series is ideal for customers who are limited on space or require smaller production levels without compromising on rigidity or top-quality performance.

S-200 SERIES | The easyTouch control system is a touchscreen interface that is intuitive and user-friendly. It uses traffic light colors to indicate production readiness. The system includes a clear 7-inch dust-repellent graphic display with six short-stroke keys that make it simple to operate power, feed track, and heat up the glue pot. You can create and save up to 20 programs using different unit buttons, and your four favorites can be displayed on the main screen.
